Hence, no Certificate of Product Registration (CPR) has been issued therefor by the agency. The CPR posted on the advertisement for the said product is falsified and utterly misleading.

Section 8 of Presidential Decree No. 1144 (P.D. No. 1144) states that it shall be unlawful for any handler of pesticides, fertilizer, and other agricultural chemicals or for any farmers, planter or end-user of the same as the case may be:

Considering that the above-mentioned product has not gone through the evaluation process of FPA, the agency cannot assure its quality and safety. Hence, all concerned establishments are warned not to distribute, advertise, or sell the aforementioned product, otherwise, appropriate penalties and sanctions shall be strictly imposed.

To verify if a certain product is registered with FPA, the list of the registered products can be accessed through this link:

All FPA's Regional and Provincial Personnel, Law Enforcement Agencies, and Local Government Units are requested to ensure that this product is not sold or made available in the market or areas of jurisdiction. Moreover, the Bureau of Customs is urged to restrain the entry of unregistered imported products.

For more information and inquiries about this Advisory and to report any sale or distribution of unregistered fertilizer, pesticide, and other agricultural chemical products, kindly contact FPA through email at [fpacentral77@gmail.com](mailto:fpacentral77@gmail.com) or call (02)8920-8573.
