MR. GABRIEL ATOLE

Regional Officer

FPA Region V

DA-RFO V Cmpd.

San Agustin, Pili, Camarines Sur

Dear Sir;

The Municipal Agriculture Environment and Natural Resources Office (MAENRO) has an on-going Season-long Trainers Training on High Quality Inbred Rice Production to selected farmer leaders of Malinao. One of the objectives of the training is to equip rice farmers on the technical know-how on handlings chemicals and its proper selection and usage in the management of pests and diseases in rice production.

In this regard, may we request a Resource Person from your office on February 27, 2024 at 2:00 o'clock in the afternoon at MAENRO at Balading Evacuation Center, Malinao, Albay to discuss the following topics in order to enhance the knowledge of new agricultural extension workers and farmer-participants and afterwards they can share it to other marginalized farmers:

1. Proper handling and chemical storage
2. Green labeled chemicals effective in controlling pests and diseases on rice
3. Sprayer Calibration
4. And other suggested useful topics

Looking forward for your usual support and approval on this matter.

Thank you and more power.

Very truly yours;

JOAN C. CALLOS

Municipal Agriculturist
