NOTICE TO THE PUBLIC

Please be advised that the License to Operate (LTO) and Certificates of Product Registration (CPRs) of **Itchan Fertilizer Manufacturing**, manufacturer of the **Xian-Bee Complete 14-14-14 Granular**, have been **revoked** due to violations of Presidential Decree No. 1144.

Through the continuous monitoring of our Regional Field Units (RFUs), it has been confirmed that the aforementioned product does not conform to the standards based on its guaranteed analysis, making it **off-specifications**. However, despite the issued suspension order, it has been confirmed that the company has continued production and distribution of its product via online and direct selling to farmers.

As we continue to address these issues concerning the fertilizer industry, we would like to remind the public to always buy fertilizer and pesticide products from duly licensed FPA dealers to ensure that the products you buy conform to the standards.

Further, we also encourage the public to report to us those individuals or groups who sell fertilizer and pesticide products without appropriate licenses to operate as fertilizer product handlers, and those selling unregistered, fake or off-specification fertilizers, and together, let us combat these illegal acts for the benefit of the whole industry.
