MEMORANDUM : 99-02

TO : ALL FPA ACCREDITED RESEARCHERS

FROM: ALEJO L. VILLANUEVA, JR.
Executive Director

SUBJECT : Conduct of Bioefficacy Trials Based In Approved EUP

It has reached the attention of the Fertilizer and Pesticide Authority that some accredited researchers conduct bioefficacy trial even without an approved Experimental Use Permit (EUP).

It is the policy of FPA that application for EUP must be submitted one (1) month before the test and the applicant shall ensure that the test meets the standard protocols for efficacy testing. The FPA has the right to deny any experimental data obtained from the test without an approved EUP. Furthermore, researchers shall be allowed to conduct five experiments at a given time. Any violation of this Memorandum Circular shall be a basis for the suspension and revocation of your accreditation.

For your guidance and strict compliance.

"Better harvest, health and environment through safe and judicious use of fertilizer and pesticide"
