As part of our info campaign, the clients/handlers were reminded of the expiration of their licenses as early as 90 days prior to their expiration dates. For the 4th quarter of FY 2024, there were 3,253 applications received, of which 190 have collections for surcharges. Issuance of penalties imposed which are based on the late renewal of permits are not within the control of the agency but this is a positive indicator because despite the imposition of penalties F/P stakeholders still opted to register their business with FPA and by this farmer would have more choices of suppliers in the market.
